A fledgling vampire and a headstrong vampire huntress must work together--against their better judgment--to rid the world of monsters in this irresistible romantic fantasy. Carolina Fuentes wants to join her family in hunting the bloodthirsty vampiros that plague her pueblo. Her father, however, wishes to marry her off to a husband of his choosing, someone who'll take her away from danger. Determined to prove she'd make a better slayer than wife, Carolina vows to take down a monster herself. But when she runs into un vampiro that is somehow extremely attractive and kind, her plan crumbles. Lalo Villalobos was content leading a perfectly dull life until un vampiro turned him. Now forced to flee his city, he heads to the pueblo where he believes the first vampiro was made. Surely its residents must know how to reverse this dreadful curse. Instead of finding salvation, Lalo collides with a beautiful young woman who'd gladly drive a dagger through his heart. Fortunately, Lalo and Carolina share a common enemy. They can wipe out this evil. Together. If his fangs and her fists can stay focused, they might just triumph and discover what it feels like to take a bite out of love.
