ISBN-13: 9781416934837

An informative and creative tale about a fallen oak tree in the forest, teaching young readers about the various purposes it serves in the ecosystem during every step of its life cycle. One stormy day a strong wind rages through the forest, causing an old oak tree to bend and sway. Lightning strikes; the tree crashes to the ground. Now it's a giant log. In this fascinating book, author Wendy Pfeffer and illustrator Robin Brickman introduce readers to they life cycle of a tree. The informative, lyrical text is complemented by stunning, three-dimensional paper sculptures that showcase the forest ecosystem, inspiring readers to take a close look at the trees—and logs—in their own backyards.
