He's not your average Joe from the corner bar. He's the heir to the crown. I should know, I've followed him for years. Not in a stalkerish way. Magazines and online gossip blogs are fair game when you're royalty. But I do know every detail about him, down to the brand of boxer briefs he wears. All my studying of the man who plays a starring role in my dreams pays off when I win a dinner with him. As if that wasn't enough, he barter a deal with me that has him moving into my spare guest room. I forgot that fairy tales don't exist though because just as I'm about to get everything I want, including the prince, I find out there's someone in Prince Adrian Marx's life I don't know— his fiancée.
