Christmas in the mountains—what could go possibly wrong? With a recent divorce and an empty nest, Eloise Brandon is facing Christmas alone. But then a harried phone call changes everything. Before she has a moment to think twice, Eloise is en-route to her godfather's chalet in the beautiful Swiss Alps to help cater for some seriously rich, high rolling guests. What follows is a heady alpine mixture of old friends, ex-husbands, demanding guests, and a disheveled but dishy proprietor. A magical festive adventure to the beautiful Alps. Perfect for fans of Trisha Ashley.
