Introduce children to the alphabet and first words with this interactive trace-and-flip board book featuring bright and bold illustrations! This unique, innovative book offers an engaging way for children to discover letters and first words! Young readers can trace each capital letter by following the tracks with a finger to learn the shape of the letter, then lift the flap to see an object that begins with that letter. This engaging board book will help children:

- Learn the letters of the alphabet and how to write them as they trace
- Connect letters to new words with helpful illustrations
- Practice hand-eye coordination as they lift the flap on each page
- Stay entertained on road trips and airplane rides!

To reinforce learning, caregivers are encouraged to help children trace each letter as they say its name and make its sound; point to each picture while reading the words; and practice hand-eye coordination as they lift the flap on each page.
