While you are preparing the form in Acrobat, click the Date field icon in the toolbar, and then click the location in the document where you want to place the field. This is Add date and time to a form field. Your mouse will turn into a light blue box for you to Left mouse click (and hold) > Drag a box > Release mouse button (This is where you want the date stamp field in your document). In this article, we'll discuss three methods to add a date field to a PDF. The code above assumes you have a field called "Today" that you want to populate with today's date. To specify the time along with date, double-click the Date field to open the Properties window. On the Prepare Form ribbon over the top of the document, click the icon for Add a date field. Add Signature Field In Pdfesign PDF You can insert date fields into your PDF files in Adobe Acrobat XI and display the date automatically from the system clock when a reader opens the document.
