One woman, two men, a fierce attraction and a danger that could destroy them all... Olivia Holloway's life has never been easy. On her own at sixteen, she's fought to survive ever since. When she finds herself in a dangerous situation that even she can't handle, she has to break down and ask for help. She reluctantly seeks it by showing up at her estranged brother's law firm. However, it's not her brother, Trey, who steps in, it's the firm's private investigator, Elliot Stone and his husband, Grant Lane. They agree to hide her at their home to keep her safe after she witnesses a powerful Senator commit murder. Together for a decade, Eli and Grant's marriage is solid and they're still deeply in love. But when Olivia shows up at the firm they both work at, Eli feels a pull toward the woman he can't deny. Only now he needs to convince his husband that bringing her into their relationship will not destroy what they have but only enhance it. However, will Grant agree? And will the trouble that's following Olivia put them all at risk? Note This book in the series can be read as stand-alone. It includes an HEA ending. It is intended for audiences over 18 years of age since it includes MMF scenes between all three characters.
