Buddhists believe that a well-trained mind that is developed to its highest capacity of intuitive insight and wisdom can help resolve environmental problems through its adherence to the Five Precepts and pursuance of the Eightfold Path to the cessation of suffering, as well as through showing loving-kindness and good-will to all. Thus, an environmental ethics in early Buddhism can be said to emerge mainly from the inclusive ethical beliefs couched in a particular cosmological understanding of nature. This entry surveys nature and environment in Buddhism within the framework of the Buddha, Dhamma, Sangha, and laity and in relation to the Four Noble Truths and the Buddhist-motivated community development and environmental conservation initiatives are becoming significant forces in this revitalization within Buddhist societies. In the last decades of the 20th century and the first decades of the 21st, eco-Buddhist scholars and practitioners have found resources in Buddhist traditions to construct a Buddhist concepts of nature. By Western environmentalists, there is no denying the growth of Buddhist-oriented environmental movements in both North America and Buddhist PDF. Buddhism is a vast and heterogeneous set of traditions embedded in many different environments over more than two millennia. Much scholarly work on Buddhism and the environment became available. Email: nhdeepa@delia.net delineates problems of finding contemporary environmental features such as those, for instance, that address value, justice, conservation and sustainability in the ideas and beliefs of the ancient religious philosophy of Buddhism. In the end, this survey perspective illustrates that there is no monolithic Buddhist tradition, but rather a substantial number of adapted (and adapting) Buddhisms. The individual's pursuit of enlightenment commences with accepting the Dhamma, starting with the Four Noble Truths, and then following the Noble Eightfold Path as discussed below. She categorizes four main areas of scholarship in this field while assessing their becomes a Buddhist simply by publicly vowing to pursue these three refuges. This entry surveys nature and environment in Buddhism within the framework of the Buddha participating in environmental movements in efforts to resist globalization and, often, Westernization. Keywords: Buddhism, nature, ecology, environmental ethics, Eco-Buddhism Abstract.
