Knowledge is dynamic, continuous, and ever expanding. Descriptive knowledge, which describes and analyses an existing or past reality. These knowledge characteristics include the following: † Using knowledge does not consume it. † Knowledge is abundant, but the ability to use it is scarce. Knowledge types classify knowledge based on its different purposes. This will explain why we need a new theory of knowledge and its management. This will explain why we need a new theory of knowledge that knowledge is impossible. The issue of knowledge in theories of the firm has been addressed mainly in the resource-based view of the firm, where it has doxical characteristics of knowledge that are radically different from other valuable commodities. This will explain why we need a new theory of knowledge and its management. It discusses We shall present below some of the important characteristics of knowledge: † Knowledge is infinite. † Transferring knowledge does not result in losing it. Several characteristics of knowledge have been described: Knowledge is contextual and it can be re-used; Benefits of knowledge obtained only if it is applied; The values of The Characteristics of Knowledge In this chapter, we discuss the nature of knowledge and how it differs from other resources. The main knowledge types are: Definitional knowledge, which includes concepts, constructs, terminologies, definitions, vocabularies, classifications, and taxonomies. † No final word can ever be said of any discipline; they are at best provisional, subject to criticism, correction, contradiction, change or modification Knowledge is a familiarity, awareness, or understanding of someone or something, such as facts, information, descriptions, or skills, which is acquired through experience or education by The Characteristics of Knowledge In this chapter, we discuss the nature of knowledge and how it differs from other resources. The Epistemology, or the theory of knowledge, is one of the cornerstones of analytic philosophy, and this book provides a clear and accessible introduction to the subject. The idealist, emphasizing the mentally constituent character, and muting the others, must make of the distinction of knowledge and In this chapter, we discuss the nature of knowledge and how it differs from other resources.
