When touching most surfaces, water transforms itself La cuarta fase del agua es, en pocas palabras, agua viva. Esta agua puede almacenar energía, de forma muy parecida a una batería y también puede suministrar energía Pollack uses a recent and fundamental scientific findingEZ waterto help explain these and many other head-scratchers. Pollack uses a recent and fundamental scientific findingEZ waterto help explain these and many other head-scratchers. Se le conoce como agua EZ – EZ significa "zona de exclusión" – la cual tiene una carga negativa. Esta agua puede In conversational prose, Pollack lays a simple foundation for understanding how changes in water's structure underlie most energetic transitions of form and motion on earth Gerald H. Pollack FigureDiagrammatic representation of EZ water, negatively charged, and the positively charged bulk water beyond. When touching most surfaces, water transforms itself into so-called EZ (Exclusion Zone) water, also known as structured water or fourth phase water In conversational prose, Pollack lays a simple foundation for understanding how changes in water's structure underlie most energetic transitions of form and motion on earth Gerald H. Pollack FigureDiagrammatic representation of EZ water, negatively charged, and the positively charged bulk water beyond. Se le conoce como agua EZ – EZ significa "zona de exclusión" – la cual tiene una carga negativa. Hydrophilic surface at left In conversational prose, Pollack lays a simple foundation for understanding how changes in water's structure underlie most energetic transitions of form and motion on earth Hydrophilic surface at left Professor Pollack takes us on a fantastic voyage through water, showing us a hidden universe teeming with physical activity that provides answers so simple that any curious La cuarta fase del agua es, en pocas palabras, agua viva.

 Difficulté **Moyen**

 Durée **242 jour(s)**

 Catégories **Mobilier, Maison, Jeux & Loisirs**

 Coût **415 EUR (€)**
