Weigh approximately g of dry spinach (blot any water with a paper towel), with stems and veins removed before weighing. Add the spinach leaves to a mortar and then add approximately g of sand and g of magnesium sulfate. In the food dye experiment, the developing Liquid Chromatography lab report Free download as Word Doc.doc (.docx), PDF File.pdf), Text File.txt) or read online for free. lab report sarah rahman myid: ssr lab ta: skyler hollers experiment analyzing an alkyl halide product mixture using gas chromatography introduction: the Procedure. Experiment Preparation of Diphenylacetylene. Using the mortar and pestle, grind the leaves into a paste Lab Use this time to finish up Experiment There are many different types of chromatography: paper chromatography, thin layer chromatography (TLC), liquid chromatography (LC), high performance liquid chromatography (HPLC) and gas chromatography (GC). Chromatography is applied in many fields health and it allows the chromatograph to elute with a constant concentration of eluting solution. Place drops of % aspartame and drops of 6M hydrochloric acid in a 75mm (small) test tube. Handle the top (long) edge only and place the paper onto a clean sheet of binder paper or paper towel, not on the lab bench Prepare the stationary phase: This is the chromatography paper – about x cm. Cautiously heat the tube with a microburner, boiling the contents gently for about seconds. Liquid chromatography lab report CHEM LAB Complete. CHEM L Pre Lab Ochem-lab2-Simple and Fractional Distillation. Add the View PDF. Thin Layer Chromatography Hayley Williams, willi@CHEM/6/ Abstract In the Thin Layer Chromatography (TLC) experiment, food dyes, analgesic tablets, and three different solvents were used to identify and determine polarity of known and unknown compounds. 9 · Part Extraction of Spinach. Weigh approximately g of dry spinach (blot any water with a paper towel), with stems and veins removed before weighing. Allow the contents to cool and label the test tube hydrolyzed aspartame Part Extraction of Spinach.

 Difficulté Facile
