Continuously in print twenty-six years after its initial publication, *The Making of the Atomic Bomb* remains the seminal and complete story of how the first atomic bombs were developed, from the turn-of-the-century discovery of the vast energy locked inside the atom to the dropping of the first bombs on Japan at the end of a terrible world war. That competition launched the Manhattan Project and the nearly overnight construction of a vast military-industrial complex that culminated in the fateful dropping of the first atomic bomb. Richard Rhodes's ability to craft compelling biographical portraits is matched only by his rigorous scholarship. Try NOW! \*\*Winner of the Pulitzer Prize, the National Book Award, and the National Book Critics Circle Award\*\* The definitive history of nuclear weapons— from the turn-of-the-century discovery of nuclear energy to J. Robert Oppenheimer and the Manhattan Project—this epic work details the development of the atomic bomb from Leo Szilard's concept through the drama of the race to build a workable device to the dropping of the bomb on Hiroshima. *The Making of the Atomic Bomb* is a history book written by the American journalist and historian Richard Rhodes, first published by Simon & Schuster in 1986. The book won the Pulitzer Prize for General Non-Fiction, the National Book Award for Nonfiction, and a National Book Critics Circle Award. This sweeping account begins in the early 20th century, with the discovery of nuclear fission, and continues to World War Two and the Americans' race to beat Hitler's Nazis. Traces the development of the atomic bomb from Leo Szilard's concept through the drama of the race to build a workable device to the dropping of the bomb on Hiroshima.
