The mother’s containing function involves helping the infant develop a capacity for self-regulation. The simplicity of this has its appeal for the psychoanalyst: an analytic situation is presumed to exist and interpretations of the Bion’s view is that infants become overwhelmed by their experience as they lack sufficient internal controls. Bion () described three types of communication, occurring on different levels of Bion based their concepts upon these particular early formulations of Freud’s. These patterns in- More specifically, in terms of part-object relationships, it is the relation between the baby’s mouth (the seeker of knowledge) and the knowledge Download Free PDF. View PDFCONTAINER AND CONTAINED Wilfred Bion A n advantage of believing that observations are the foundation of scientific method is that the conditions in which they are made can be stated and then produced. Keywords: specific action, projective identification, container, container-contained, introjective It appears in the Container and Contained relationship of widely dissimilar groups to their mystics; it reveals itself in the history of the Christian heresies, the heliocentric 1, · Bion () formulated the essential relationship between thinking and communicating in terms of the container-contained relationship. Bion () described three types of communication, occurring on different levels of development: commensal, symbiotic, and parasitic. Bion () described Wilfred Bion’s (b) concept of the “container/contained” and Donald Winnicott’s () concept of “holding” are both concepts that foreground the role of the mother in the CONTAINER AND CONTAINED Wilfred Bion An advantage of believing that observations are the foundation of scientific method is that the conditions in which they are made can be stated and then produced. This infant takes in (internalises) this sense of being contained and experiences the Container-contained and reverie For Bion, the way a thought grows within the mind is modelled on the mother-baby relationship, which he calls container-contained. thinking and communicating in terms of the container-contained relationship. The simplicity of this has its appeal for the psychoanalyst: an analytic situation is presumed to exist and Bion () formulated the essential relationship between thinking and communicating in terms of the container-contained relationship.
