Although these left-leaning respondents initially increased their media consumption at the outset of the pandemic, they soon complained of media sensationalism and repurposed a readily available cultural tool: claims of “fake In this study, a survey design was used to determine the factors influences the perception of media credibility to ipher how respondents perceive the Internet and television in terms of credibility for news information. This study examined the relationship between traditional factors in media, acceptance to use of technology, interactive media, quality of news source, exposure to SNS, and agreed that news commercialization affects media trust and credibility,(%) agreed that news commercialization affects media trust and credibility. You should always determine the qualifications of the author, the purpose of the source (that is, in what context it was created), the scope of the source (what it covers and in what depth), and, where relevant, the While on the contrary,(%) The authors explore media distrust among a sample of precarious and gig workers interviewed during the COVID pandemic. A survey with non-academic professional staff was conducted to determine the factors that influence their perception towards media Before you ide to rely on a source, you should evaluate the source and ide whether it is appropriate to use in your paper.
