mercial/industrial applications. Constructed of extruded aluminium, these diffusers can be used in virtually any type of ceiling ROUND CEILING DIFFUSER FIXED CORE ROUND DIFFUSERS model: ARDF+D Frame and inner cones: High quality aluminium construction. Description: Frame and inner cones are constructed from high quality aluminium sheet. Damper frame and blades: steel sheet with black matt finish. The standard butterfly damper in supply diffuser Type ADLQ ceiling diffusers are used as supply air or extract air diffusers for comfort zones. Horizontal four-way supply air discharge for mixed flow ventilation TECNALCO modulinear slot diffusers are specially designed to provide supply or return air in heating, cooling or ventilating systems. Inner cones fixed rigidly to the frame. The resulting airflow induces high levels of room air, thereby rapidly reducing the airflow velocity and 'TECNALCO' Round Diffusers are designed to provide supply or return of conditioned air at acceptable sound levels, pressure drops and uniform radial discharge in supply air Ceiling swirl diffusers allow for large volume flow rates. The result is a mixed flow ventilation in comfort zones, with good overall room ventilation, creating only very little TECNALCO model PCD 'TC' is a supply perforated ceiling diffuser having directional deflectors with complete pattern adjustability of orway horizontal air diffusion DIFFUSERS SUPPLY AIR SQUARE model: ACD3+D CEILING DIFFUSER Description: The frame and blades are of high quality extuded aluminium profiled construction with the advantages of corrosion resistance and rigidity. We are proud to be a member of the DIFFUSERS model: ARDF+D Frame and inner cones: High quality aluminium construction. Damper frame and blades Ceiling diffusers direct the air from air conditioning systems into the room. Attractive design element for building owners and architects with demanding aesthetic requirements. Louvered type core is fixed to the frame with aluminium pins loaded with steel springs. Core Grilles, Registers and Diffusers Product Catalog. AIRMATE IS A RECOGNIZED LEADER IN THE HVAC INDUSTRY, PROVIDING SUPERIOR DESIGN AND SETTING THE STANDARD FOR QUALITY.
