Madam Alexa learned the hard way to stay away from the opposite sex. She deals with men and takes their money, but doesn't fall for them. Ever. And, she certainly doesn't screw them that is, until a billionaire Texan, who proposes a male virgin auction, catches her attention in every way possible. If the deal works, she'll make enough money to retire and walk away from everything no regrets. Brooks Taylor hates deceiving, but he has no other choice. He's ready to expose the dirty scheme he believes Madam Alexa runs in her glorified brothel. After all, his sister died because of Alexa's sordid business. But keeping his mind off Alexa and his hands (and what's in his pants) to himself becomes more difficult the longer he works with her. When he learns she's not the villain he believed her to be, it's too late to come clean. But, stopping the sizzling attraction pulling them together is impossible. Each book in the Highest Bidder series is STANDALONE: \* Auctioned to the Greek Billionaire \* Sold to the King \* The Billionaire's Betrayal
