While investigating the death of his lovers brother, Ben Hope returns for a race around Europe as he uncovers clues and secrets suggesting the murder of eighteenth-century composer Mozart in this suspenseful thriller by international bestselling author Scott Mariani. When former British Special Air Service officer Ben Hope is enlisted by his first love, the beautiful singer Leigh Llewellyn, to investigate her brother Olivers death, their search leads to a blood-soaked puzzle dating back to the eighteenth-century and the death of Wolfgang Amadeus Mozart. The famous composer was a noted Freemason and evidence suggests it was possible he was killed by a shadowy splinter group of the organization. The official report states that Oliver died in a tragic accident, but the day he died, he sent Leigh all the files concerning an unfinished book on Mozart. As Ben and Leigh piece together Olivers research, they receive a missing letter written by the composer himself that indicates both mens deaths could have been murder. From Oxfords dreamy spires to Venices labyrinthine canals and Viennas majestic palaces, Ben and Leigh must race across Europe to uncover the truth behind the Mozart conspiracy.
