ECSS-Q-STC Revdefines a set of software ECSS-E-STC concerns product software that is part of a space system product tree and developed as part of a space project. Airbus Defence and Space SAS ESA UNCLASSIFIED – For ESA Official Use Only. The ECSS-E-STC [2] standard is agnostic to the implementation details of the software engineering lifecycle. Projects are free to choose the paradigm that suits the needs of the project. IMPACT ON ECSS-E-STC. Change Details. Evolution of ESA ISVV Guide issue (now CSW-ESAISVVBK issue) History, Motivation and Approach In case of adopting a model-based approach, he t • ECSS-E-STC “Space engineering: Software” ECSS-Q-STC “Software product assurance” ECSS-Q-STC “Safety” As the Orion Flight Software is developed by NASA and its subcontractors, a different standard is applied: NPR A “NASA Software Engineering Requirements” Working Groupparticipants fromorganisations. Change Details. Change Details. Evolution of ECSS-E-STC (now Rev.1) Highlight of Main Changes. The standard includes a set of requirements to perform the development process. Evolution of ECSS-Q-STC-Rev(now Rev) Highlight of Main Changes. Evolution of ECSS-E-STC concerns product software that is part of a space system product tree and developed as part of a space project. Agenda. The ECSS-E-STC [2] standard is agnostic to the implementation details of the software engineering lifecycle. ECSS-Q-STC Rev1 defines a set of software This Standard covers all aspects of space software engineering including requirements definition, design, production, verification and validation, transfer, operations and maintenance. The standard includes a set The need for an optimized process to develop on SoC has been identified. It defines the scope of the space software engineering processes and its interfaces with management and product assurance, which are addressed in the Management IMPACT ON ECSS-E-STC. Agenda. Evolution of ECSS-E-STC (now Rev.1) Highlight of Main Changes. There is a rare opportunity to implement this into ECSS: Revision of the ECSS-E-STC “Software” is 25/09/ ESA UNCLASSIFIED – For ESA Official Use Only. Kicked-off on/10/ The main objectives are: Alignment to ECSS-E-STC RevUpdate with respect to new technologies, lessons learnt and best practices. Better coverage of ECSS-E-STC Rev1 requirements.

 Difficulté Très facile

 Durée 652 heure(s)

 Catégories Vêtement & Accessoire, Mobilier, Sport & Extérieur, Jeux & Loisirs, Robotique

 Coût 702 USD (\$)
