Right-click Select Open with > Choose another. See if you can open PDF Change from Microsoft Edge to the Acrobat PDF viewer: Right-click on the thumbnail of any PDF file. In the first subsection, the text "Opens with:" indicates which PDF viewer is set as your default. A new dialog box will appear. Scroll down If Microsoft Edge is listed on the right, click it and change to Adobe or else. Select Microsoft Edge and check the Always use this app to files option Restart. Change from Microsoft Edge to the Acrobat PDF viewer: Right-click on the thumbnail of any PDF file. On the menu, click Properties. Go to Start > Default Programs > Choose default apps. Here is how I tried to resolve this In Edge, I navigated to Settings > Cookies and site permissions > PDF documents and disabled Always download PDF files and PDF view settings. 2 To fix it, you should reselect Edge as your default app for opening PDF files. Select Adobe Acrobat DC or Reader from the list as your default In the first, I just got a new computer with Windows Any and all PDF's that appear on my computer are opened in Microsoft Edge and the file icons themselves show E PDF. Free Trial\$ · Developer Small Business\$1, · Paid Support Included\$1, , · MethodUsing Settings. Before you start fiddling with various settings, you should restart the Edge browser and your computer. However, if I copy the file path hyperlink to the PDF that appears in Edge and paste it into any Office program (I've tried Excel, Word, and Powerpoint), the link will open in Adobe Reader. A new dialog box will appear. On the menu, click Properties. Click the Change button. Select the desired app, e.g. Right-click a PDF file on your computer and go to Open With > Choose another app. MethodUsing Context Menu. Adobe Acrobat Reader , · When I open a PDF from File Explorer or the Desktop, it opens in Edge. I need the PDFs to open in Edge for various reasons Press Windows key + i and go to Applications; Click Default Applications; Click Choose default apps by file type; Click and change the application to Adobe Reader; Now open Edge and go to Settings; Click Cookies and site permissions in the menu on the left of the screen; Scroll down and click on PDF Documents; files opened in Acrobat Pro. But after my computer restarted, they began to open in Microsoft Edge and still do. First, close the Edge browser and re-launch it.
