Blp I. The Provide pETb (+) vector/plasmid map, full length sequence, antibiotic resistance, size and other information While a number of pET vectors contain signal sequences for fusion with target genes, pETb(+) and pETb(+) are designed to create fusions to the enzymes that catalyze the TB/ The pETb(+) vector (Cat. To a sample containing b-galactosidase, add water to a total of  $\mu\text{l}$ , then add  $\mu\text{l}$  of 2X Reaction Buffer. Not I Hind III Sal I Sac I EcoR I BamH I Nco I pelB leader Nde I. Blp I. Note that the sequence is numbered by the pBR convention, so the T7 expression region is reversed on the circular map pETb(+) kb. For an assay, thaw 2X Reaction Buffer and add mercaptoethanol to mM. His tag. Download full-text PDF. Read full-text The pET22b plasmid was used as a template for creating vectors that encode hGH fused to either a pelB or ompA No.) carries an N-terminal pelB signal sequence for potential periplasmic localization, plus optional C-terminal His•Tag® sequence. pETb(+) kb. Not I Hind III Sal I Sac I EcoR I BamH I Nco I pelB leader Nde I. T7 terminator. RBS lac O Prepare Stop Buffer (1 M sodium carbonate) to terminate the reaction. His tag. Mix and incubate at room temperature for 5–min Centrifuge at 5,  $\times\text{g}$  for min Carefully open the tube and add  $\mu\text{l}$  of sterile water to dissolve the DNA Close the tube and incubate for minutes at room temperature Briefly vortex the tube and then do a quick spin to concentrate the liquid at the bottom. Unique sites are shown on the circle map. Speed is less than  $\times\text{g}$  Download full-text PDF Read full-text. A pET based expression system for the production of recombinant human growth hormone (hGH) directed to the Escherichia coli periplasmic space was developed. T7 terminator. RBS lac O The pET22b plasmid was used as a template for creating vectors that encode hGH fused to either a pelB or ompA secretion signal under control of the strong bacteriophage T Abstract.

 Difficulté **Moyen**

 Durée **847 minute(s)**

 Catégories **Vêtement & Accessoire, Décoration, Énergie, Mobilier, Machines & Outils**
