Examples: Acids, alkalis Drinking water, wastewater, sewage sludge 4 Endress+HauserSafety instructions Designated use The measuring device described in these Operating Instructions is to be used only for measuring the mass flow rate of liquids and gases. Material: Stainless Steel EN /ASTM L, EN /ASTM L These parameters are then used to calculate other variables such as • Mass flow, volume flow, density and temperature measurement as well as calculated variables (e.g. Portable pH meters; pH sensors & transmitters; Conductivity sensors & transmitters;Flow measurement; Shop all; Coriolis mass flowmeters ; Electromagnetic flowmeters ; Operating Manual Endress+Hauser The Power of Know How BA D/06/en/ NoCV Valid as of software version V XX (amplifier)The Promass 2 Endress+Hauser •Make sure the document is stored in a safe place such that it is always available when working on or with the device. At the same time, the system also measures fluid density and fluid temperature. Nominal diameters DNto (<sup>3</sup>/<sub>8</sub> to). Most liquids can be measured as of a minimum conductivity of 5 Flow measurement; Shop all; Coriolis mass flowmeters ; Electromagnetic flowmeters ;Endress+Hauser AG. Switzerland. fluid concentrations) F (Standard version) a Universal sensor for fluid temperatures up to + °C (+ °F). Tel. +; info@ 4 Endress+HauserSafety instructions Designated use The measuring device described in this Operating Manual is to be used only for measuring the flow rate of conductive fluids in closed pipes. Most liquids can be measured as of a minimum conductivity of μS/cm. Coriolis Flowmeter EtherNet IP. Proline Promass F measuring instruments 6 Endress+Hauser Designated use Application and media The measuring device described in these Instructions is intended only for flow measurement of liquids with a Endress+HauserSafety instructions Designated use The measuring device described in this Operating Manual is to be used only for measuring the flow rate of conductive fluids in closed pipes. •To avoid danger to individuals or the Missing: flow meter View and Download Endress+Hauser Proline Promass F operating instructions manual online. A minimum conductivity of μS/cm is required for measuring demineralized water.

 Difficulté Très facile

 Durée 334 heure(s)

 Catégories Art, Alimentation & Agriculture, Mobilier, Jeux & Loisirs, Science & Biologie

 Coût 676 USD (\$)
