Accurate & Reliable Extreme Performance Bolt Tensioner Tensioning Pumps, Hoses and Couplers High pressure pumps, hoses and fittings matched for use with the Enerpac GT-Series Bolt Tensioning system. \$4, Add to cart. The reaction nut must be free running on all bolts over the extended portion above the nut. Whenever In use, AquaJack Bolt Tensioners are attached to every stud bolt in the joint assembly allowing simultaneous and uniform bolt tightening. Protect the bolt protrusion using sleeves, adhesive tape, etc. Bolt Range/ (MM) The tensioner must be able to be freely threaded onto all bolts over the length protruding through the flange faces. The AquaJack series can used on a wide range of bolt size and pressure requirements. AquaJack Bolt Tensioners are to be Pressure to Load Chart: GT-Series Bolt Tensioners, Pressure to Load Chart: GT-Series Bolt Tensioners Pressure to Load Chart: GT-Series Bolt Tensioners Free Freight on Missing: pdf The tensioner must be able to be freely threaded onto all bolts over the length protruding through the flange faces. This will protect the threads from knocks and damage during installation GT7LCB, Hydraulic Torsion Bolt Tensioner, in Maximum Thread Range. Viewing of GT-Series hydraulic topside bolt tensioners can achieve accurate preload in single or multiple fasteners simultaneously GLOBAL FORCE. Six load cells from M to Mor from % to % Twin ports for quick connection of multiple tools Only one size of Upon delivery all components must be inspected for damage incurred during shipping A broad range of hydraulic bolt tensioners designed for critical fastening applications. Tensioner Arrangements (typical) Hydraulic tensioners can be mounted on either one or both sides of the joint, depending on available clearance and work room. Delivery Instructions. Torsion Bolt Tensioner. The reaction nut must be free running on all bolts over the Accurate & Reliable Extreme Performance Bolt Tensioner Tensioning Pumps, Hoses and Couplers High pressure pumps, hoses and fittings matched for use with the Enerpac GT AquaJack Bolt Tensioners are to be used as part of a complete hydraulic system, alongside a pump, hose arrangement and reaction nuts. Torsion Bolt Tensioners.
