We'll make you look younger and refreshed with natural-looking results. Our founder Susan Tan, MD, is double board certified and provides neck lifts, nose surgery, and eyelid surgery. Her aesthetic sensibilities and medical knowledge are unmatched by other plastic surgeons in Oahu. We also offer non-surgical facelift options using the latest dermal fillers. Patients love them for the brief downtimes and beautiful results. If you've been looking in the mirror and concerned about what you see, make an appointment for a consultation. A commitment to patient education sets Dr. Tan apart from other plastic surgeons in Honolulu. She takes the time to get to know each patient and understands their needs.</p>
