Étape 1 - Introduction of Serato DJ

From the unknown to the greatest, Serato DJ is s the most popular DJ software for DJing globally that you can just grab on the Serato site. When you're talking about Hip-Hop, Dance, and everything in between, you're looking at the standard. It's free to try if you want to have a feel for the software but in order to use it with a supported DJ controller or mixer.

However, for most people, the most important thing is where they can find appropriate music tracks for use in Serato DJ. Maybe you can find the perfect track from those streaming music services. Spotify is one of the leading names in the streaming music industry. In this post, we'll walk you through on how to add Spotify music to Serato DJ for mixing.

What Kind of Music Services Work with Serato DJ Software?

Finding new music is no longer an issue. You can now stream everything from the freshest underground sounds to certified classics directly in Serato DJ software.

1. Discover new music with SoundCloud

You can get immediate access to the newest songs posted on SoundCloud and stream them in high-quality 256kbps AAC in Serato DJ Software. You'll also be able to access, create, and edit your playlists and search SoundCloud's catalog all within Serato DJ Software.
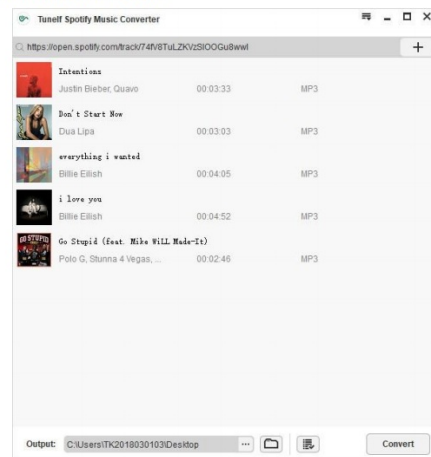

2. Get a new track with TIDAL

Streaming with TIDAL in Serato DJ Software gives you access to an endless music library at the highest audio quality available. You can organize your playlists from the TIDAL phone or desktop app, then the next time you open Serato DJ Software they'll be ready for you to DJ with.

Étape 2 - Method to use Spotify with Serato DJ

How to Convert Spotify Music to Serato Supported Format?

DJs can search for music from the catalogs of SoundCloud and Tidal, directly within Serato DJ Software. If you want to blend music tracks from Spotify into Serato DJ Software, you need to download and convert Spotify music to a playable format. Because Spotify doesn't offer its service to Serato DJ Software now.

To download and convert Spotify music to Serato DJ supported formats, you need the help of Spotify music converter. It is not easy to complete the conversion and download of Spotify music but Tunelf Spotify Music Converter enables you to finish the conversion with three steps.

Key Features of Tunelf Spotify Music Converter

- Download Spotify music tracks, albums, playlists, and artists for free
- Convert Spotify music tracks to MP3, AAC, FLAC, M4A, WAV, and M4B
- Export Spotify music with lossless audio quality and full metadata info
- Handle the conversion and download of Spotify music at 5× faster speed

Étape 3 - Download Spotify music with Tunelf

Step 1. Add Spotify music to Tunelf interface

Run Tunelf Spotify Music Converter on your computer and it will automatically load the Spotify app. Then navigate to Spotify and select the playlist in your library you want to import to Deezer. After the selection, just drag and drop the playlist to Tunelf interface. Or you could copy and paste the URL of the playlist onto the search bar on Tunelf interface.

Step 2. Configure the output audio parameters

After your chosen playlist is added to the conversion list, you click the menu bar and choose the Preference option. In the Convert section, you can adjust the output audio parameters for Spotify music, including the output format, sample rate, bit rate, and channel. You also set the conversion speed, and for more stable conversion, just choose 1× conversion speed.

Step 3. Start to convert Spotify music to MP3

Once all setting is done, just click the Convert button and Tunelf application will start to download and convert Spotify music to the folder you specified. When the conversion is finished, you can browse the converted playlist in the history list by clicking the Converted icon. For browsing the detailed music files, click the Search icon to proceed further.

Étape 4 - Add Spotify music to Serato DJ

How to Blend Spotify Music into Serato DJ Software for Mixing?

Now it is easy to load the converted Spotify music from your computer to the library on Serato DJ Software, and you can use Serato DJ to manage your music collection by the way.

Step 1. Launch Serato DJ software on your computer, then click the FILES button to open the file panel. You will see all locations of your computer hard drive or external drive on the left panel, then you can click one location to navigate the folder you save the converted Spotify music.

Step 2. Drag and drop the folder or files you want to import to the purple All… icon. Now, all converted Spotify music or playlist are loaded to Serato DJ software from your local drive, and you can use Serato DJ to manage your music library or mix your new masterpiece.
