It includes two subtests: Sight Word Efficiency –the number of printed words that can be accurately identified in seconds. Four alternate and equivalent forms of each subtest are available, making the test even more Two new subtests: Sight Word Efficiency (SWE) and Phonetic includes TOWRE Examiner's Manual; Form A and Form B Examiner Record Booklets; Response to Intervention Booklets; and Forms A, B, C, and D Word Cards The TOWRE measures the test takers capacity to recognise familiar words as whole units or sight words and the ability to sound out words quickly. This brief instrument Complete TOWRE Kit Includes: Examiner's Manual, Form A Word Cards, Form B Word Cards, Form C Word Cards, Form D Word Cards, Form A Examiner Record Comprehensive Test of Phonological Processing (CTOPP-2), Test of Word Reading Efficiency (TOWRE-2), Test of Preschool Early Literacy (TOPEL) A measure of an individual's ability to pronounce printed words (Sight Word Efficiency) and phonemically regular nonwords (Phonemic coding Efficiency) accurately and fluently. Phonetic coding Efficiency –the number of pronounceable printed nonwords that can be accurately coded in The TOWRE measures an individual's ability to pronounce printed words (i.e., sight word efficiency) and phonemically regular nonwords (i.e., phonemic coding efficiency), skills that are critical in the development of overall reading ability. Fast administration makes the test an efficient means of monitoring the growth of two kinds of word reading skills New normative data Extensively revised manual TOWRE assesses sight word efficiency and phonemic coding efficiency Professional Development/Training Manual provides instructions on administering the assessment and interpreting the data. For teachers and specialists who need a quick and reliable way to assess the ability to pronounce printed regular words and phonemically regular nonwords for children, adolescents, and young adults, the TOWRE offers four alternate forms that yield reliable sight word efficiency and phonemic coding efficiency scores for students ages through The TOWRE is the most current version The new TOWRE measures an individual's ability to pronounce printed words accurately and fluently. TOWRE can be used to monitor progress in growth of word-level reading skills three or four times per year. site TOWRE Contact Information Terri Cooter PRO-ED, Inc Wth Str. Austin, TX ext.
