selinker' s paper only mentioned corder' s in passing, but it nevertheless. article interlanguage was published on janu in the journal international review of applied linguistics in language teaching (volume 10, issue 1- 4). psychologically, latent linguistic system of lennberg (1967), who believed that language acquisition was an age- confined process, was the trigger of selinker' interlanguage selinker 1972 pdf s il theory besides his notice of the language of the l2 learner for being colored by forms , interlanguage, iral; international review of applied linguistics in language teaching, 10: p. at that time, it was stated that, in attempting to understand the phenomenon of second- language learning, the. norbert vanek, larry selinker. international review of applied linguistics in language teaching. at a time when no systematic research was being conducted on second language acquisition, selinker proposed that a linguistic system (interlanguage, or il) underlies the learner language produced by adults when they attempt meaningful communication using a language they are in the process of learning (target language). draws on wide- ranging research into contrastive analysis, bilingualism, theoretical linguistics and experimental psychology. according to richards et al. acquisition shows speci c, idiosyncratic. interlanguage elaine tarone interlanguage (il) refers to the linguistic system of learner language produced by adults when they attempt meaningful communication using a language they are in the process of learning. the construct of interlanguage was proposed by larry selinker in 1972 and stimulated the first research studies in the new field of second language acquisition. has lead selinker to hypothesize il in a seminal article entitled interlanguage in 1972. selinkerbelieved that some language rules in the learner' s il are transferred from his/ her l1. " interlanguage" was defined by selinker as the separate linguistic system evidenced when adult second language learners spontaneously express meaning using a language they are in the process of learning. international review of applied linguistics, 10, 219- 31. the transfer of l1 can be positive or. this is consistent with the hypothesis that interlanguage is a unique natural l2 language system (selinker, 1972, white,). interlanguage (il) refers to the linguistic system of learner language produced by adults when they attempt meaningful communication using a language they are in the process of learning. processes influencing il formation as outlined by selinker (1972). the original interlanguage concept (selinker, 1972) saw strategies of l2 learning and communication as two central processes. in a learning strategy the learner attempts to bring long- term competence into being, in a communication strategy, to solve a momentary communication difficulty; this distinction resembles the codebreaking/ decoding. that' s why the transfer of l1 rules can lead to fossilization. pdf
