IHR require that all countries have the ability to detect, assess, report, and respond to public health events. The IHR are an instrument of international law, adopted pursuant to Article of the WHO Constitution, and are legally-binding on States Parties, including all the Member States. While disease outbreaks and other acute public health risks are often unpredictable and require a range of responses, the International Health Regulations (IHR) provide an overarching legal framework that defines countries' rights and obligations in handling public health events and emergencies that have the potential to cross borders. Recalling references to the need for revising and updating the International Health Regulations in resolutions WHA on revision and updating of the International Health Regulations, WHA on global health security: epidemic alert and response, WHA on global public health response to natural occurrence, accidental release or The areas of work are in line with the WHO Medium-term strategic plan, which identifies the implementation of the IHR (IHR) as one of the main priorities under the strategic objectives of the plan. Medium-term strategic plan – and proposed programme budget – Geneva, World Health Organization, The International Health Regulations (IHR) are a legally binding agreement of countries to build the capability to detect and report potential public health emergencies worldwide. CDC works with countries around the globe to The revised International Health Regulations (IHR) provide an overarching legal framework that defines countries' rights and obligations in handling public health events and , when the revised International Health Regulations (IHR) enter into force, the world will also have the necessary global framework to prevent, detect, assess and provide a The International Health Regulations (IHR) are a legally binding agreement of countries to build the capability to detect and report potential public health emergencies. The International Health Regulations (IHR) provide the international legal framework for the prevention and response to the international spread of diseases. NEW OBLIGATIONS, NEW OPPORTUNITIES. The International Health Regulations (“the IHR” or “Regulations”) were adopted by the Health Assembly in, having been preceded by the International Sanitary International Health Regulations (IHR) Basic information for national policy-makers and partners.
