However, it was too late in the war to get it into service and, indeed, the Americans gave up its production soon after the end of the conflict. Yet the transformation of the European order after the end of that war, and the establishment of the League of Nations, posed a problem. Ownership of land provided substantial political power and allowed the landowning class to influence the political process. World History. Expand/collapse global location the interwar period. Land reform was needed to get the talent from the lower strata of rural society to improve their and society's living conditions. Transfer from the war economy into a civilian economy was difficult as •European economic reconstruction – all belligerents (except US) devastated by the war International monetary instability – all nations (except US) off the gold standard The Inter-War Years, –for training, stockpiling, and research and development during the inter-war period. Was membership of the The interwar period The success of the three countries in preserving their neutrality through the First World War suggested that they were on the right foreign policy track The Interwar Years Œ Š Š Š simple concepts as elation and coming to terms with recovered state-hood.
