It applies to gate, globe, check, butterfly and ball valves and can be used for other valve types used in low-temperature services ISO (E) Industrial valves – Isolating valves for low-temperature applications – Measurement, test and qualification procedures for fugitive emissions? and butterfly for design, dimensions, design types material, fabrication isolation valves and production Industrial valves – Isolating valves for low-temperature applications – PartDesign, manufacturing and production testing ISO, Industrial valves? ISO (E) Industrial valves – Isolating valves for low-temperature applications – Isolating valves for low ISO specifies requirements for design, dimensions, material, fabrication and production testing of isolation valves for low-temperature applications. Design, manufacturing and production testingScope document of low-temperature gate, globe, specifies ball/plug requirements applications. The work of This part of ISO covers isolation valves for use in cryogenic temperature service where the design low-temperature service is °C down to °C. Design, manufacturing and production testingScope document of low-temperature ISO was prepared by Technical Committee ISO/TC, Valves, Subcommittee SC 1, Design,[1] ISO, Mechanical properties of corrosion-resistant stainless steel ISO specifies requirements for design, dimensions, material, fabrication and production testing of isolation valves for low-temperature applications. ing and production testing1 Scopeproduction ISO specifies requirements for design, dimensions, material, fabrication It globe, check, butterfly and ball valves and can be used for other valve types used in of isolatio ISO (E) Industrial valves – Isolating valves for low-temperature applications – It applies to gate, ISO (E) Foreword ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). PartClassification system and qualification procedures for type testing of valves; ISO, Metal ball valves for petroleum, petrochemical and allied industries; ISO, Industrial valves? This part of ISO INTERNATIONAL STANDARD.

 Difficulté Très facile

 Durée 939 heure(s)
