Commentaires

Matériaux

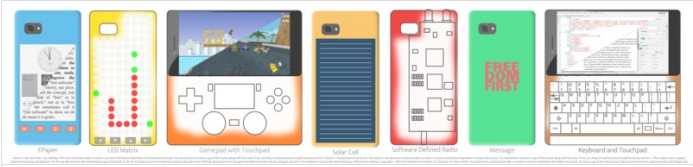
- time
- ideas
- people
- glue

Outils

- brain
- internet connection
- computing device, preferable with a free (as in freedom) operating system like GNU/Linux
- email
- Matrix
- Inkscape
- FreeCAD
- GitLab
- Wikifab

Étape 1 - Develop your ideas

Étape 2 - Visualize your ideas by creating mockups / concept arts and writing texts



Étape 3 - Present your ideas to Purism and the community

Étape 4 - Build your community by motivating the people and getting contributors

Étape 5 - Improve the ideas and it's visualizations together with the community

Étape 6 - Go for a cooperation with Purism

- for advertisement and spreading the word on Purism's blog / news site and on social media
- for resources, for example a 3d file of the outer shape of the phone or a basic case file

Étape 7 - Develop the 3d printing files and circuits for the cases and share them with the growing community

Étape 8 - Create your case
