UNLIMITED FREE ACCESS TO THE WORLD'S BEST IDEAS. MIL-STDG, Military Standard: Electromagnetic Interference Characteristics Requirements for Equipment Example verification would be a Visit Authorization Request (VAR) on file with DTRA/SCC-WMD. This TOP provides methods for planning, providing instrumentation, and execution of testing Army/DOD equipment to determine the effects of Horizontal Component High Altitude Electromagnetic Pulse (HEMP) environment. The content includes facilities, instrumentation setup, new testing procedures, actual environmental considerations, and MIL-STDC, The High-Altitude Electromagnetic Pulse (HEMP) Standard, is a classified (SECRET) document that is with controlled distribution and subject to export control laws. SIGN UP TO performance-based criteria for protection against functional upset or damage due to HEMP threat environments defined in MIL-STD This Standard does not mandate design solutions to meet criteria. MIL-STDC, The High-Altitude Electromagnetic Pulse (HEMP) Standard, is a classified (SECRET) document that is with controlled distribution and subject to export control MIL-STD High-Altitude Electromagnetic Pulse (HEMP) Environment Buy DOD STD HIGH ALTITUDE ELECTROMAGNETIC PULSE (HEMP) ENVIRONMENT (U) (CLASSIFIED) from Intertek Inform Customer Support: + MIL-STDC, DEPARTMENT OF DEFENSE INTERFACE STANDARD: ELECTROMAGNETIC ENVIRONMENTAL EFFECTS, REQUIREMENTS FOR SYSTEMS (), This standard establishes electromagnetic environmental effects (E3) interface requirements and verification criteria for airborne, sea, space, and ground Find the most up-to-date version of MIL-STD at GlobalSpec. To receive MIL-STDC, you must demonstrate need-to-know and verify that you can receive and store SECRET information MIL-STD/, Department of Defense Interface Standard: High-Altitude Electromagnetic Pulse (HEMP) Protection for Ground-Based C4i Facilities Performing Critical, Time-Urgent Missions, (Part Transportable Systems). The To receive MIL-STDC, you must demonstrate need-to-know and verify that you can receive and store SECRET information. Also, identify how the classified information should be transmitted to you: SIPRNET, Joint Worldwide Intelligence Communications of MIL-STD should be addressed with a need-to-know to: HQ DTRA, ATTN: TD/TDANE, Telegraph Road, Alexandria, VA Other Government documents, drawings, and publications Abstract.
