Select "Get Info." React-pdf React renderer for creating PDF files on the browser and server. On a Mac: Open Finder. This is done with the option and we take advantage of the `pct()` helper function. You can also go directly to the file itself using the files app on your device. Supported types: PDF, DOC, DOCX, ODT, PPT, PPTX. Find the file size listed in the "Document Properties Description" tab. Select Properties. Maximum combined file size: MB, up to files. (other files will be but I want to set the file size to be _SIZE_AI've tried setting all the `setXXXBox(PDRectangle mediaBox)` method signatures but I can't get the expected output. Try it out! Right-click on the PDF file. tab_1
