ISBN-13: 9781500934491

This is the companion workbook for the book "Illegal to Legal: Business Success for (ex) Criminals." It is the only publication of its kind, which shows practical and immediate steps for offenders, ex-offenders, and those at risk of offending to use their street skills and life experiences to channel them into a small business start-up. Unfortunately many people know no other means to support themselves but crime. To fight the vicious circle of crime and recidivism we need to create ways current offenders, former offenders, and those at risk to offend, but how? Showing (ex) criminals how to be successful in legal businesses will change the destiny of millions of people. This workbook can be studied in a class setting or individually. "Illegal to Legal" was created because if you supported yourself with crime you can be very successful in a legitimate business IF you take the lessons you've learned from your past and apply them to your future. Illegal to Legal shows how to use your past life experience, your skills, and your passions to start your own business. Practical steps and inspiring real life examples are provided, and a step by step plan to help you start a business. There also is a list of over 165 businesses you can start - many requiring no money! Buy this workbook for anyone you wish to give a new future to, apart from crime.
