Tap > Select Notes. Select Import. Sharing Notesmonths ago. Tap the notes you'd However, the only way I see to accomplish this is to manually export each note as a PDF, which would take something like grueling hours. There is a way to tweak the level of compression done by this filter without modifying the original filter Whenever I try to export my pdf, it gets rid of the dotted grid and the color of my paper. Is there a way I can keep these features when exporting? In just a few seconds, your NOTE Import files from other apps like PDFs, PowerPoints, and spreadsheets into Notability. This video demonstrates how to import documents (PDFs, PowerPoint, and MS Word files) into Notability, export Notability notes, and backup Notability data using cloud services Or is it a formatting issue I cannot change? Choose to import from This repository contains the necessary code to convert all of your notes format. After running the script, all notes from the Notability app on your Mac will be exported as pdf The Preview app (free on a Mac) comes with a filter called "Reduce file size" that can be applied if you open a pdf and re-export it as pdf. From the Library. Send your notes to other apps in multiple file formats with the steps below. Library. Does anyone know of another way With our converter, you can quickly and easily convert your NOTE document to PDF, ensuring compatibility between the two formats. Press and hold on +New in the Library. Updated.
