Follow the steps below Hi, the documents aren't signed. In Adobe Acrobat, all you have to do is go to Tools > Protect > Encrypt > Remove Security. Most PDF viewers (especially browser-based ones) do not support viewing or filling in of XFA-based PDF forms. is having the issue. (The URL you see is obsolete, sorry!) (1) Click on the dot icon on the top right of the Chrome browser window and If both Acrobat and Reader are installed, then make Acrobat as your default PDF viewer. Type the password in the box, then click OK. If you don't have administrator permissions Unfortunately, the answer is no. SolutionMake Acrobat the default PDF owner on your computer. If you use Chrome, you must configure Chrome to download PDF files instead of opening them in Chrome. My company pays for Adobe subscriptions so it is incumbent upon Adobe to get this sorted out 1 Correct answer. The only way to make any changes to a signed document is to revoke the signature, create a new document, sign it again and update the relevant We would like to show you a description here but the site won't allow usOn Windows: Press Windows key + R to open the Run dialog, type Acrobat in the Open field, and then click OK. On Mac: Type Acrobat in the spotlight.
