Nitro PDF Creator is ready to use Method Windows Explorer ¶. If the option is not visible, click The printer that I want isn't listed. Right click on any document and select Create PDF with PDFCreator. In the Add Printer dialog box, select Add a Local Printer or Network printer with Manual If step didn't solve the problem and the didn't get deleted during the uninstall, run as admin and then enter the command "net stop spooler". To switch printers on Windows, see Change the default printer (Windows and 8) or search Windows help for instructions. Sometimes a different printer can successfully print a PDF that doesn't print on another printer. The virtual printer has disappeared. Select Add a printer. See the following figure. It will return the default printer status to the original printer once the process has been completed. If the tool is not found in Help tab, you will need to go to the installation folder of Nitro Pro and run Please let me know how that goes Solution Manually install the PDF Printer. Go to Windows\system and delete the manually, then run the command "net start spooler" Unlike Toby (my childhood nickname, BTW Hello, Brother! , · I'm running PDF Creator on Windows build bit. Proceed with step of method 1 Open "Start Menu->Programs", you can see "Foxit PDF Creator" group with registration and uninstallation program. Open "Control Panel"->"Printers and Faxes", you can see Foxit PDF Creator is added with the name "Foxit PDF Printer". In the Add a Device dialog box, select Add a local printer. If PDFCreator is not your default printer, it might ask to become it temporarily in order to complete the request. PDF file solutions In the Support Tools dialog, select the PDF Creation tab. Click Start > Control Panel > Devices and Printers. Open MS Word, you can see a Foxit PDF Creator's icon on the toolbar If you have a different printer connected to your computer, try printing the file to the other printer. ¶) the patch worked for me without having to use the "update" feature within AcroBe However, I had to download the bit patch, not the bit Close your Nitro Pro and MS Office applications if they're open Right-click on the Nitro Pro desktop icon and select Run as Administrator Go to Help tab > Support Tools > PDF Creation tab and click Nitro PDF Creator button. Click on the button labelled Nitro PDF Creator to reinstall the virtual printer. I tried to reinstall the program and to install the printer Nitro PDF Creator is included in Nitro Pro, and is a virtual printer that enables you to create a PDF file from any application capable of printing.
