Game Principle. Each round consists of three waves: vanguard, flank, and rear. Pixel Tactics is a card game where players build units around leader cards and use heroes to attack the opponent's unit, with the goal of defeating their leader. The leader's abilities alter vastly the strategy and playability of every other card in the deck, making the game playable in different ways. A single game of Pixel Tactics consists of several matches. Components. You win as soon as you are able to destroy the Rival's Unit. Pixel Tactics is a head-to-head tactical battle for two players. Home. Some life counters. Each player will create a battle team called a unit, which consists of a leader and up to eight heroes, and these two units will meet on the field of battle. The leader's abilities alter vastly the strategy and playability of every other card in the deck, making the game playable in different ways. The goal of Pixel Tactics is to choose a Leader, build a cohesive Unit of Heroes around that Leader, and then use your Unit to destroy the Rival's Unit. Each player has an identical deck of cards, from which they draft a leader. Home (current) Explore Explore All. Upload; Login Register. In the game, players take turns placing cards and attacking. Each match contains any number of rounds, with each round broken into three waves: vanguard, flank, and rear.
