Ready to get your mind blown by sloth awesomeness? Fur Texture: Sloths have coarse fur with a unique texture. Here we go! Sloths are the world's slowest mammals, but there's a good reason for their snail's pace. Their slow metabolism means they need to To mimic this, make short, light strokes with your coloring tools, going in the direction of the fur growth These nuggets of knowledge aren't just fun; they'll give you a peek into the world of sloths, making your coloring experience even richer. Work from the Inside Out: Start coloring from the central part of the sloth's body and work your way outwards. This helps prevent smudging.
