I'm sorry, but this is not a business for me and thus; I do not have automated ordering software What you do is: slip the washer onto the cable then slip the nut onto the end of the cable fold about 1/2" of the cable back over the nut. And don't forget a Phone Number. (A set of vice grip pliers come in handy here, they hold the cable while you're adding the clamp) clamp the cable together with the cable clamp, tightening it good Lumber: One 1" x 6" x 6' Back. has spacious 2" W x 2" H x 4" Deep compartments allowing for large broods that can back out of the way Chuck Abare Wells Rd. Athens, AL, On the request, please state that you want house plans and of course, a correct email address and I'll email the plans to you. Roof 4" 6' Board Side Front 2" for eastern bluebird or tree swallow 4" great crested flycatcher Note: For smaller birds, make a smaller house using one 1" X 6" X foot board. The front and sides will then only need to be 8" long instead of 9", and the back will only need to be 8" instead of 12" West Main Street, Watertown · mi · () has a 2" spacing in the middle of the house and with holes drilled in the back of the compartment walls, allows for good ventilation. plans come with two entrance hole options, round 2" holes and the crescent shaped as shown here.
