Flynn Department of Management Massey University, Palmerston North, New Zealand. Leadership is an incremental component that centers the existence, survival and functioning of any group or organisation level. Email: @ Studying Servant Leadership: a Proposal. This is especially notable, given that as Bass () stated, "leadership is often regarded as the single most critical factor in the success or failure of institutions" (p) That is, leadership researchers Leadership has traditionally focused on what Yukl () referred to as "a single, heroic leader" (p.), but in more recent years the idea of leadership being spread across several individuals has started to take hold The research objectives include assessing the impact of leadership styles on employee performance, determining the extent of their impact on project success, and developing a conceptual framework to understand the relationship between leadership quality and performance of the literature in this area reveals little empirical research or rigorous inquiry on organizational cynicism and its relationship to leadership styles or behaviors. ABSTRACT: The of the literature in this area reveals little empirical research or rigorous inquiry on organizational cynicism and its relationship to leadership styles or behaviors. This is Leadership research proposal Free download as Word Doc.doc (.docx), PDF File.pdf), Text File.txt) or read online for free. between transformational leadership and follower performance (Tims et al.), this study appears to be one of the first to investigate the merits of this hypothesis Result Our literature review suggests that EI is positively related to "servant leadership behavior" by the mediator of "servant leadership attitude." The document provides an overview of the Research Proposal LEADERSHIP Free download as Word Doc.doc (.docx), PDF File.pdf), Text File.txt) or read online for free. Core self-evaluation. Most likely this research focus reflects the general approach to transformational leadership research, which has shied away from specificity since routine encounters such as the assignment of specific tasks typically fall under the category of management.
