ISBN-13: 9781515845683

Sadiq's third grade class has no classroom pet! Not only that, but Sadiq has never had a pet of his own. So Sadiq gathers some classmates to help him solve this problem. What kind of pet would be perfect for their class? A lizard? A bunny? A parakeet? Soon it's up to Sadiq and friends to convince their teacher and classmates that they have found the perfect pet match.
