## Sommaire

Introduction

Étape 1 - Connect the three boxes

Étape 2 - Close the solar module box

Étape 3 - Insert the aluminium profiles

Étape 4 - Pull down the elastic bands

Étape 5 -

Étape 6 -

Étape 7 -

Étape 8 - Switch on battery box

Étape 9 - Switch on socket box

Étape 10 - Plug in consumer

Étape 11 - Dismanteling

Étape 12 - Switch off Socket Box if switched on

Étape 13 - Turn Solar Panels out of sun

Étape 14 - Disconnect Solar-Connectors

Étape 15 - Switch off Battery box

Étape 16 - Unplug / detach orange cables

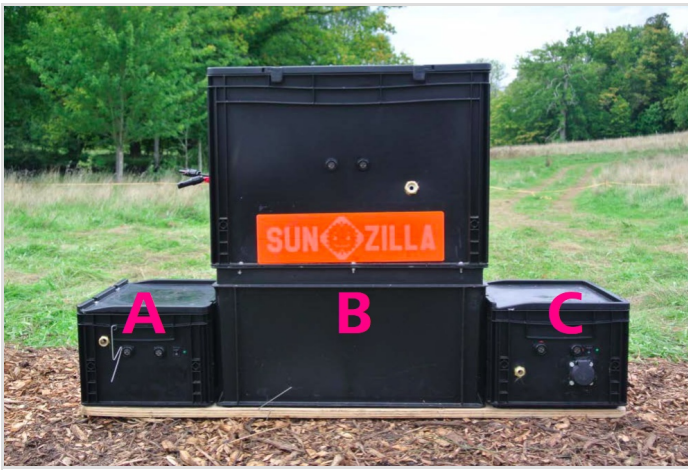

Étape 17 - Switch on Socket box again

Commentaires

## Introduction

### Technical details:

- Solar peak Power: 140W
- Maximum AC-output of pure sinus inverter: 350W (700W peakload)
- Effectiv battery storage: 600 Wh

## Matériaux

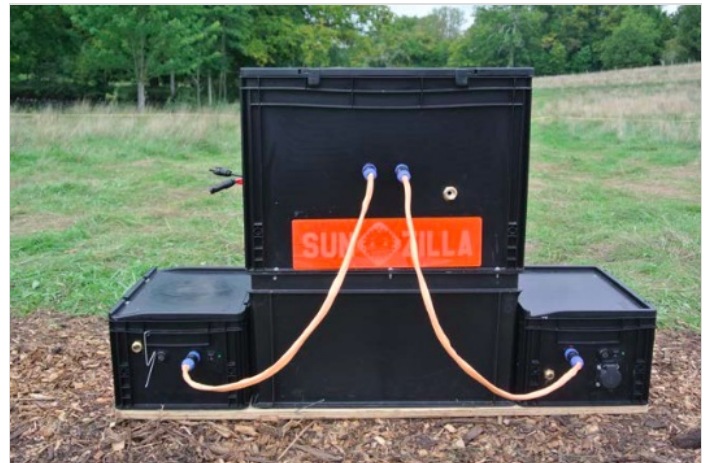

Get the three boxes : 1. The left one (A) is the battery box 2. The middle one (B) the solar box 3. The right one (C) the socket box  
Open the solar module box, and get the solar cells, the cables, the aluminium profiles and the 8 screws outside.

## Outils

## Étape 1 - Connect the three boxes

Press the cable inside when both white points match and turn the blue top unit of the cable to lock.

## Étape 2 - Close the solar module box

Close the solar module box, put the two long aluminium profiles in their holes. Open slightly the box and insert two screws to lock the profiles. Choose the same holes in the middle and be sure to do the same on both sides.

## Étape 3 - Insert the aluminium profiles

Take the shorter aluminium profiles, insert them as shown on the pic and lock them.

---

## Étape 4 - Pull down the elastic bands

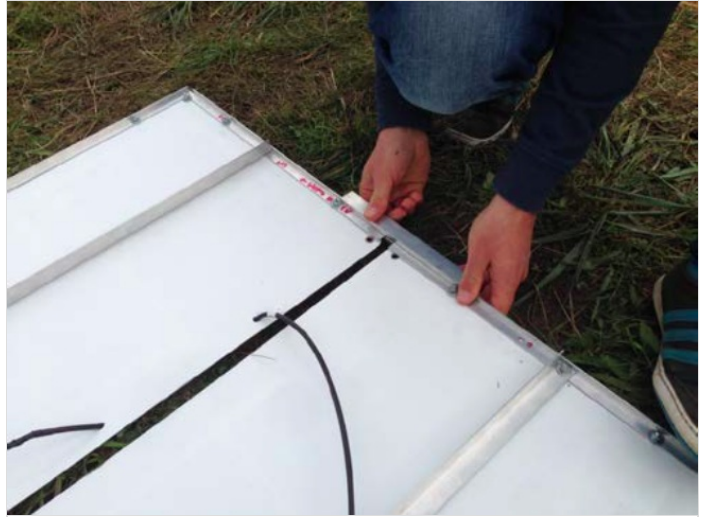

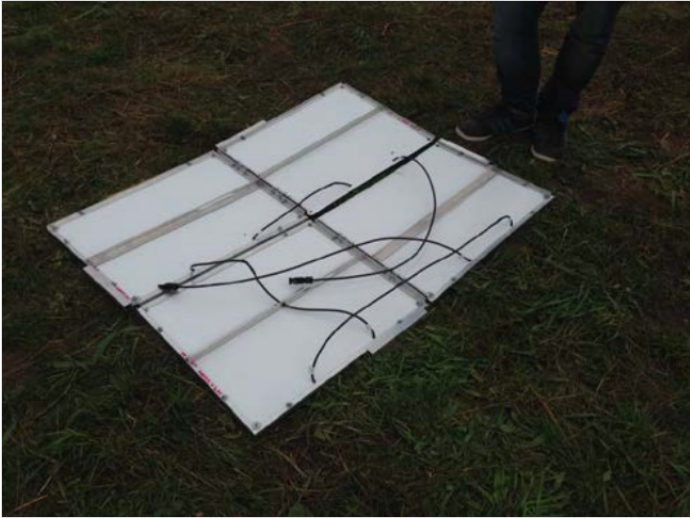

---

## Étape 5 -

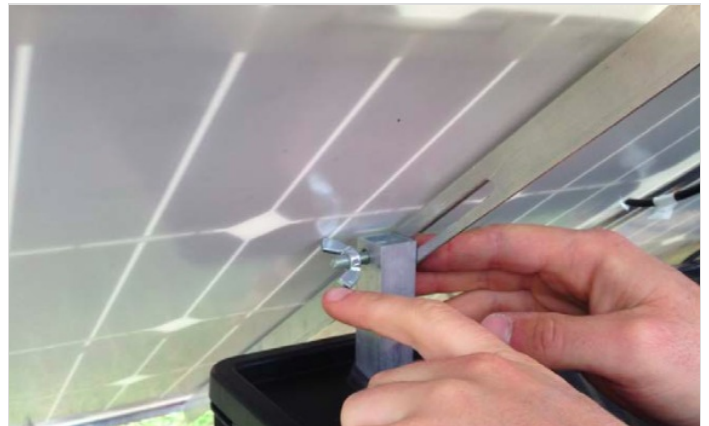

Take the solar cells. Unfold them and shift the aluminium edges at all four sides

## Étape 6 -

Take the upper part of the solar module and connect the whole solar module with the upper aluminium profile. Be sure that the solar module is on the left side of the aluminium profile. Connect also the lower part.

## Étape 7 -

Connect the cables from the solar cells to the solar module box.

---

## Étape 8 - Switch on battery box

Switch on battery box. Green light should turn on

All sizes are accepted. If it's possible, prefer the landscape format.

---

## Étape 11 - Dismanteling

 **IMPORTANT!! DANGER!! READ DISMANTLING MANUAL!!**

At Dismanteling, you **MUST** follow the right order of these steps, otherwise you could be hurt.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,  
prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,  
prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,  
prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,  
prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,  
prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,  
prefer the landscape format.

## Étape 12 - Switch off Socket Box if switched on

Switch off Socket Box if switched on

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

---

## Étape 13 - Turn Solar Panels out of sun

Turn Solar Panels out of sun and cover at least one Solar-Panel (for example with Pullover)

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,  
prefer the landscape format.

## Étape 14 - Disconnect Solar-Connectors

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

## Étape 15 - Switch off Battery box

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

NO IMAGE YET

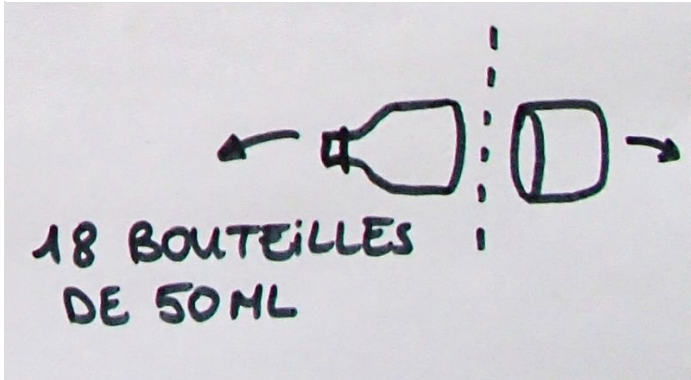

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible, prefer the landscape format.

---

## Étape 16 - Unplug / detach orange cables

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,  
prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,  
prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,  
prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,  
prefer the landscape format.

NO IMAGE YET

Recommended sizes: 800 / 600 px

All sizes are accepted. If it's possible,  
prefer the landscape format.

# Étape 17 - Switch on Socket box again

Switch on Socket box again until green light is off (to discharge local energy storage), then switch OFF again!

YOU'RE DONE!
