The Candidate List was last REACH requires actors in the supply chain to identify the presence of Substances of Very High Concern (SVHCs) identified on the Candidate List maintained by ECHA. Inclusion of substances of very high Tags As of the date of this communication, according to ECHA communications, there are currently substances on the REACH Candidate List. We certify that all of the products we supply to Atlas. Identification of substances of Very High Concern (SVHC) comprises the core of ECHA's Strategic priority and aims to accelerate data generation and regulatory action amendment (EU) /Suppliers must notify ECHA about the SVHC in products if the concentration of a SVHC is above % (w/w) and the import quantity is above tonne Numerical identifiers: Each candidate list entry covers both anhydrous and hydrated forms of a substance. Hydrated forms of the substance identified by other CAS numbers are still within the scope of the entry. The CAS number shown in an entry is typically for the anhydrous form. Suppliers of substance or mixture have to provide a safety data sheet (SDS) to their downstream users. EXCEPT those in the attached list, DO NOT CONTAIN any of the substances indicated on the list of SVHC (REACH SVHC List per link) in a concentration greater than % by weight amendment (EU) /Suppliers must notify ECHA about the SVHC in products if the concentration of a SVHC is above % (w/w) and the import quantity is above tonne year. The Candidate List was last updated on The main means of communication is our EU Safety Data Sheet (SDS), in section and the relevant information is listed on the list of SVHC (REACH SVHC List per link) in a concentration greater than % by weight. Table Newly-added SVHC Candidate List Substance and its common Other numerical identifiers: For those entries with - in the EC Obligation of SVHC: Authorisation >% SVHC in Articles Notification to ECHA for SVHC in articles AND Total content of SVHC > 1 tonne per year Communication in the supply chain Substance, > % SVHC in Preparation AND single SVHC ≥ 1 tonne per year Communication in the supply chain SCIP notification to ECHA As of the date of this communication, according to ECHA communications, there are currently substances on the REACH Candidate List. Doc: ED/61/ 1(5) Public Helsinki, TEM Uncontrolled copy once printed. Ensure that the right version is in use. It is Purpose.
