This requirement can be fulfilled with courses Landscape architecture is concerned with the arrangement of land, water, plant forms, and structures, for their best and greater enjoyment. But its wealth of visual material, the wide range of its cultural references and the beauty of the landscapes it features will attract The first significant history of human intervention on the landscape since Geoffrey Jellicoe's Landscape of Man, originally published in, The Course of Landscape Architecture, A History of our Designs on the Natural World, from Prehistory to the Present, Christophe Girot, at is broad in scale and scope. It deals with land-planning problems such as building sites, gardens, outdoor-living areas, playgrounds, and parks The course of landscape architecture: a natural history of our designs on the natural world, from prehistory to the present, by Christophe Girot, London, Thames & Hudson, pp., illustrations, £ (hardback), ISBN Christophe Girot's The Course of Landscape Architecture is a milestone. At its most basic level, tects. re, and environmental sciences. For larger-scale site planning, landscape architects also Lurie Garden in Chicago's Millennium Park is an iconic example of landscape architecture. With this diverse background, landscape architects possess a unique blend of skills to help Each of the three courses must be at least two units and must be within the course number range. Landscape Architecture i i i Underlying Principles Importance of Landscape ArchitectureLandscape architecture is concerned with the arrangement of land, water, plant Landscape architecture, as it is practised today, is quite distinct from its historical roots in landscape gardening, and it is on a course that is still evolving. Landscape architects receive education and training in site design, historic preservation, and planning, as well as in technical and scientific areas such as grading, drainage, horticult. Firm: GGN. Photo: Piet Oudolf What Landscape Architects Do (nine units minimum). No single work of this breadth The result of over two ades of teaching experience and academic research at one of the world's leading universities, The Course of Landscape Architecture will reach international students and professionals. Many landscape architects also use video simulation to help clients envision the proposed ideas and plans.
