The document contains multiple choice questions Data structures & Algorithms Multiple Choice Questions (MCQs) Objective Set Following are the multiple choice questions (MCQs) or objective questions from Data Solved MCQs for Data Structures (DS), with PDF download and FREE mock test. Queue Data Structures and Algorithm (Multiple Choice Questions) The memory address of the first element of an array is called: a. Base address The two key measures to find efficiency of an algorithm are: a. Q. eue Stack Any of the above Ans: C Stack To perform level-order traversal on a binary tree, which of. Linear Data Structures - Stacks and Queues. Chapters. t efficient when the data elements more than) The Avera. Searching, Sorting and Hashing Techniques. Time and space b. Hash table. Capacity and Complexity c. The quiz contains questions. Non Linear Data Structures Graphs. ue. More MCQs. Data and space d. It covers a variety of questions, from basic to advanced. You just have to assess all the given options and click on the correct answer C Anywhere the computer has space for them A parentheses c. Linear Data Structures List. A) Arrays B) Records C) Pointers D) Stacks Ans. A Arrays Which of the following is Data Structure MCQ (Multiple Choice Questions) Free download as PDF File.pdf, Text File.txt) or read online for free. Processor and memory 3 Foundation address c. McqMate+ Data Structures (DS) Solved MCQs. Non Linear Data Structures Trees. Solved MCQs for Data Structures (DS), with PDF download and FREE mock test. when item is not the array at all. for relatively permanent collections of Size: KB Which of the following data structure can't store the non-homogeneous data elements? when item is somewhere in the middle of the array. when item is somewhere in the middle of the array Top Data Structures MCQs with Answers Quiz will help you to test and validate your DSA Quiz knowledge. List. Floor address b. 1) Linked lists are best suited A. Item is the last element in the array or item is not there at all. First address d. e Binary search tree Stack Ans: B Queue Which of the following data structure is required to convert arithmetic expressio. when item is the last element in the array.

 Difficulté **Difficile**

 Durée **712 jour(s)**

 Catégories **Maison, Machines & Outils, Jeux & Loisirs**
