

# Translations:ASKotec Tutorials - DIY Simple analog synth/7/en

---

- 1k Resistor
- 100k Resistor
- Transistor SS9018HBU TO-92
- 10k Potentiometer
- LED Diode
- Capacitors (smaller value higher pitch)
- Wires (2 Colors)
- Prototype Board
- Battery Connector (and 9V Battery)
- Mini Jack Audio Socket
- 8 Pin RoHS PCB IC Socket
