

Translations: Team Ace - Unilag/12/en

Team Ace recognizes the need for everyone to take decisive actions towards environmental protection. ACE provides an opportunity for everyone to take such actions and get rewarded for such actions. The CIR score is designed to be a global benchmark to determine an individual's positive contribution to a safe environment. Thus, the requirement of a CIR score is to be infused into certain areas of our lives, from University admission, to employment, to immigration.
