Provides security measures for cyber assets and a list of cybersecurity planning and implementation guidance resources. Read the guidelines PURPOSE AND GENERAL INFORMATION Due to the ongoing cybersecurity threat to pipeline systems, the Transportation Security Administration (TSA) is issuing this For economic and national security, the Transportation Security Agency (TSA) has issued a security directive for the nation's pipelines. The directive applies to The report contains three recommendations aimed at improving TSA's ability to ensure pipeline operators implement the cybersecurity directives. The SDD update provides consistency and This Security Directive requires three critical actions. First, it requires TSA-specified Owner/Operators to report cybersecurity incidents to the Department of Homeland Security's Cybersecurity and Infrastructure Security Agency (CISA). Second, it requires Owner/Operators to designate a Cybersecurity Coordinator who is required to be available This Security Directive requires owners and operators of TSA-designated critical pipelines to implement specific mitigation measures to protect against ransomware attacks and other known threats to information technology and operational technology systems, develop and implement a cybersecurity contingency and recovery plan, and conduct a cyber On JTSA issued the second security directive—Security Directive Pipeline--02—in response to the Colonial Pipeline attack, building on the requirements of Security Directive Pipeline--to further enhance the cybersecurity of critical pipeline systems Attachment to TSA Security Directive PipelineB TSA Security Directive PipelineB Table of Implementation Timeframes Implement network segmentation sufficient to ensure the Operational Technology system can operate at necessary capacity even if the Information Technology system is compromised by, at a minimum Pipeline Security Guidelines. Your office concurred This collection combines TSA's voluntary Pipeline Corporate Security Review (PCSR) program with the mandatory requirements under the TSA Security Directive (SD) TSA Security Directive PipelineD (SDD) cancels and supersedes Security Directive PipelineC.
