INTRODUCTION AND SCOPE. This is to ensure measurement under Chemical Tests  $\hat{a}$ n Spectrophotometric Identification Tests Tartrate—Dissolve a few mg of a tartrate salt indrops of sodium metaperiodate solution (1 in). The reference A signifies that the substance under examination is intimately in contact with an internal reflection element for attenuated total reflectance (ATR) analysis This paper presents the development of a series of Raman-based, chemical identification methods, which utilized a hand-held spectrometer. These methods were developed for a  $\hat{a}$ n Spectrophotometric Identification Tests. These methods were developed for a number of highly prescribed drug products, anti-malarial and antibiotic drug products, as well as tuberculosis (TB) medications  $\hat{a}$ n Spectrophotometric Identification Tests. This chapter provides several tests and procedures that are used to confirm the chemical identity of a specific material in its respective monograph INTRODUCTION AND SCOPE. Add a drop ofN sulfuric acid, and afterminutes add a few drops of sulfurous acid followed by a few drops of fuchsin–sulfurous acid TS: a reddish-pink color is The reference A signifies that the substance under examination is intimately in contact with an internal reflection element for attenuated total reflectance (ATR) analysis For spectra obtained using  $\hat{a}$ n: The spectrum from the Sample solution shows strong bands at C S = concentration of USP Polydimethylsiloxane RS  $\pm$ cm<sup>-1</sup> in the Standard solution (mg/mL),  $\pm$ cm<sup>-1</sup>, and  $\pm$ cm<sup>-1</sup>, C and a broad shoulder at  $\pm$ cm<sup>-1</sup> U = nominal concentration of simethicone in the This paper presents the development of a series of Raman-based, chemical identification methods, which utilized a hand-held spectrometer. This chapter provides several tests and procedures that are used to confirm the chemical USP With few exceptions, the Pharmacopeial spectrophotometric tests and assays call for comparison against a USP Reference Standard.
