Revisit the vaccination discussion at each subsequent visit vaccine-associated adverse events, some will line to have their children vaccinated. All parents and patients should be informed about the risks and benefits of preventive and therapeutic procedures, including vaccination. ”7 In the case of vaccination, federal law mandates this discussion. Within a month period,% of pediatricians report encountering a parent who refused or delayed one or more vaccines and% report encountering a parent who refused all vaccines. Revisit the immunization understand that my refusal to have my child vaccinated does not exempt my child from Georgia school or child care facility immunization requirements and that he/she will be tions, document your conversation and the provision of the VIS(s), have a parent sign the Refusal to Vaccinate form, and keep the form in the patient’s medical record. This record can be in electronic or paper formvaccine at each immunizati on visit and answer their questi ns. Even though scientific data solidly support the fact Documenting Parental Refusal to Accept Vaccination. conversation, the provision of the VIS(s), and have the parent sign the vaccine refusal form and keep the form in the patient’s medical record. For parents who refuse one or more recommended immunizations, document your conversation and the provision of the VIS(s), have a parent sign the Refusal to Vaccinate form, and keep the form in the patient’s medical record This is required by federal law. The AAP The forms to document refusal to consent to vaccination for children, adolescents, and adults can be found on the Alliance for Immunization in Michigan (AIM) coalition Document the Vaccination (s) Health care providers are required by law to record certain information in a patient’s medical record. A sample AAP Refusal to Vaccinate form is available at www.aap.org. When parents refuse a recommended vaccine, document that you provided the VIS(s), and have the parent sign the “Record of Vaccine lination.”. Despite the health care provider’s best efforts to explain its importance, some families American Academy of Pediatrics (AAP): “Pediatricians need to explain the risks of not vaccinating and should have (parents) sign an informed refusal document at each visit during which vaccination is lined.
